

Psychotherapeutic Interventions: How and Why They Work

Workgroup
December 9 - 10, 2002
National Institute of Mental Health
Rockville, Maryland

References and Suggested Readings

Broad Conceptual Issues

Baron RM and Kenny DA (1986). The moderator-mediator distinction in social psychological research: Conceptual, strategic and statistical considerations. *Journal of Personality and Social Psychology*, 51: 1173-1182.

Borkovec TD and Castonguay LG (1998). What is the scientific meaning of empirically supported therapy? *Journal of Consulting & Clinical Psychology*, 66(1): 136-42.

Hinshaw, SP (2002). Intervention research, theoretical mechanisms, and causal processes related to externalizing behavior patterns. *Development and Psychopathology*, 14: 789-818.

Holmbeck GN (1997). Toward terminological, conceptual, and statistical clarity in the study of mediators and moderators: Examples from the child-clinical and pediatric psychology literatures. *Journal of Consulting & Clinical Psychology*, 65(4): 599-610.

Kazdin AE (2001). Bridging the enormous gaps of theory with therapy research and practice. *Journal of Clinical Child Psychology*, 30(1): 59-66.

Kazdin AE (2000). Developing a research agenda for child and adolescent psychotherapy. *Archives of General Psychiatry*, 57(9): 829-35.

Kazdin AE (1999). Current (lack of) status of theory in child and adolescent psychotherapy research. *Journal of Clinical Child Psychology*, 28(4): 533-43.

Kazdin AE and Nock M (in press). Delineating mechanisms of change in child and adolescent therapy: methodological issues and research recommendations. *Journal of Child Psychology and Psychiatry*.

Kraemer HC, Stice ES, Kazdin A, Offord D, and Kupfer D (2001). How do risk factors work together? Mediators, moderators, and independent, overlapping, and proxy risk factors. *American Journal of Psychiatry*, 158(6): 848-56.

Kraemer HC, Wilson GT, Fairburn CG, and Agras WS (2002). Mediators and moderators of treatment effects in randomized clinical trials. *Archives of General Psychiatry*, 59(10): 877-83.

Signal Detection or ROC software. Available at: <http://mirecc.stanford.edu/index444.html>
This program is designed to help the average clinician/researcher with a PC to evaluate clinical databases and discover the characteristics of patients that best predict a binary outcome.

Specific Examples from the Child Literature

Hinshaw SP, Owens EB, Wells KC, Kraemer HC, Abikoff HB, Arnold LE, Conners CK, Elliott G, Greenhill LL, Hechtman L, Hoza B, Jensen PS, March JS, Newcorn JH, Pelham WE, Swanson JM, Vitiello B, and Wigal T (2000). Family processes and treatment outcome in the MTA: Negative/ineffective parenting practices in relation to multimodal treatment. *Journal of Abnormal Child Psychology*, 28: 555-568.

Sandler IN, Wolchik SA, Davis HC, Haine RA, and Ayers TS (in press). Correlational and experimental study of resilience for children of divorce and parentally-bereaved children. In Luthor SS. (Ed.). *Resilience and vulnerability: Adaptation in the context of childhood adversities*. NY: Cambridge University Press.

The Research Units on Pediatric Psychopharmacology Anxiety Study Group (2003). Searching for moderators and mediators of pharmacological treatment effects in children and adolescents with anxiety disorders. *Journal of the American Academy of Child and Adolescent Psychiatry*, 42(1): 13-21.

Weersing VR and Weisz JR (2002). Mechanisms of action in youth psychotherapy. *Journal of Child Psychology and Psychiatry*; 43(1): 3-29.

Wolchik SA, Sandler IN, Millsap RE, Plummer BA, Greene SM, Andersen ER, Dawson-McClure SR, Hipke K, and Haine RA (2002). Six-year follow-up of preventive interventions for children of divorce: a randomized controlled trial. *Journal of the American Medical Association*, 288(15): 1874-81.

Specific Examples from the Adult Literature

DeRubeis RJ and Feeley M (1990). Determinants of change in cognitive therapy for depression. *Cognitive Therapy and Research*, 14: 469-82.

DeRubeis RJ, Hollon SD, Evans MD, Garvey MJ, Grove WM, and Tuason VB. (1990). How does cognitive therapy work? Cognitive change and symptom change in cognitive therapy and pharmacotherapy for depression. *Journal of Consulting and Clinical Psychology*, 58: 862-869.

Feeley M, DeRubeis RJ, and Gelfand LA (1999). The temporal relation of adherence and alliance to symptom change in cognitive therapy for depression. *Journal of Consulting and Clinical Psychology*, 67: 578-82.

Tang TZ and DeRubeis RJ (1999). Sudden gains and critical sessions in cognitive behavioral therapy for depression. *Journal of Consulting and Clinical Psychology*, 67: 894-904.
